Education

Columbia University, Columbia Engineering

MS in Computer Science, Software Systems Track

• Relevant Courses: Programming Languages and Translator, Formal Verification, Code Generation

Columbia University, Barnard College

BA in Computer Science, Minor in Dance

- GPA: 3.74/4.0; Major GPA: 3.9/4.0; Dean's List; Computer Science Departmental Honor
- Relevant Courses: Program Synthesis, CS Theory, AI, ML, Cloud Computing, Cryptography, Databases

Work Experiences

ARiSE Lab, Columbia University	New York, NY
Research Assistant; Advisor: Prof. Baishakhi Ray, Prof. Junfeng Yang	Sep 2024 – Present
\circ Researching methods to reduce vulnerabilities in code generated by LLMs	

• Engineered backends for evaluating the proposed method and existing LLMs on generating vulnerable code

Software Design and Analysis Lab, Carnegie Mellon University Research Assistant; Advisor: Prof. Eunsuk Kang, Prof. Matthew Bolten

- Extended Fuzzy Mental Model Finite State Machines (FMMs) for modeling human mental model, developed an Alloy-based model checker and an analysis tool to detect mode confusions in FMMs.
- Researched use cases and HCI aspect for ATLAS, a tool that solves the constrained LTL learning problem through an encoding in a first-order relational logic and reduction to an instance of the maximal satisfiability (MaxSAT) problem; paper under submission to ICSE 2025
- Conducted a usability study on an open-source EHR system and developed a tool to auto-generate erroneous workflows from software interactions through Carnegie Mellon's REU (REUSE) program.

Barnard Programming Language Lab, Barnard College

Research Assistant, Advisor: Prof. Mark Santolucito

- Formalized, engineered, and evaluated a machine-learning based run-time validation approach for maintaining the system integrity for system migrations; paper submitted to FSE 2025
- Finetuned and benchmarked an LLM pipeline for generating Temporal Stream Logic (TSL) spec; paper submitted to AAAI 2025
- Designed and implemented user interfaces, and conducted user studies for TSL.
